

„Geography for all“

March 15st/16st 2018

Cologne, Germany

**Institut of Primary Science and
Social Sciences**

Faculty of Mathematics and Natural Sciences
University of Cologne

EUROGEO 2018 will aim to address cross-cutting issues such as:

- How does geographical education respond to needs of society and the world around us?
- How do new technologies and open access to data help to solve today and future issues?
- How should education respond to the ever-increasing importance of geographic information?
- What is geography's contribution to making citizens?
